high PBT content

DESIGNED BY 1STPLAYER

• 98 Keys

Small size help free up space on your desk.

• MDA Profile Keycaps

Improving finger speed

• DYE Sublimation Printing

Dye-sublimation printing is a printing technique
which uses heat to transfer dye onto the plastic.
It makes the printing long lasting and resistant to scratching

· Sound dampening foam

Reducing sound from your keyboard when typing.

· Customized POM Satellite Shaft

POM is a Self-lubricating material
that help prevent long keys from getting stuck
